OVERVIEW

CLUB SPORTS DEFINED

A sport club is a registered student organization that has been formed for the purpose of competing and/or participating in a particular sport. Many sport clubs exist because of the desire to continue participation in a sport by students other than varsity athletes. Each club’s level of competition or activity is unique, and is dependent on club leadership. Sport clubs are student-initiated, student-led and student-managed, providing an opportunity for the development of leadership and other life skills and to contribute to the overall college experience. Club Sports are an Independent Student Organization and not owned or operated by the University of Pittsburgh (*). Participation in Pitt Club Sports at the University of Pittsburgh is voluntary. The University of Pittsburgh is not responsible for any injury, damages or property loss that may be sustained through participation in the sport club programs.

**Competitive Clubs**
Competitive clubs compete against outside competition, usually other collegiate clubs, as part of a structured regional or national league. Competitive clubs MUST be part of a National Governing Body. Many competitive clubs have coaches, travel and play off-campus, and conduct regularly scheduled practices. Competitive club sports also typically involve a greater financial commitment and time commitment, both in number of days per week and a longer period of time for the season.

**Recreational Clubs**
Recreational clubs focus more on instructional aspects and recreational play of the sport or nature of the club/activity they are associated with. Recreational clubs DO NOT travel.

MISSION

Pitt Club Sports at the University of Pittsburgh is dedicated to providing students safe opportunities for participation in a wide variety of sport activities, including activities that are competitive, recreational, and instructional in nature. Students are afforded leadership opportunities and experiences, as each club is organized, managed, and led by students. The program strives to contribute to the health, well-being, development, and education of students through involvement with sport club activity, while supporting those activities by providing use of Campus Recreation facilities and services.

ADMINISTRATION

Competitive and Recreational sports are registered through the Division of Student Affairs, and administered by the Campus Recreation Department, the Student Organization Resource Center in the Office of Student Life, and the Office of Student Conduct.
