Career Center Mission

To equip students with resources and connect them to opportunities in support of a successful transition from college to career.

Program Goals

1. To educate and empower our faculty and staff partners when having conversations with students about their career plans
2. To scale our services for wider reach
3. To establish consistent University-wide messaging

DID YOU KNOW?

A 2017 Gallup/Strada study showed that nationally, 4 out of 10 students have never used their institution’s career services, whereas 46% of students report that they speak regularly with faculty members or staff about their career options.

Program Topics

- Best practices for assisting students with career planning
- Career decision-making process and employability
- Overview of the National Association of Colleges and Employers (NACE)
- Goal setting for career development
- Professional and ethical guidelines as outlined by NACE
- How to make effective Career Center referrals
